

E-Tron AB

Electric Vehicle Specialist

E-Tron AB provides solutions for companies using electric vehicles and has done so since 1993. The company has grown steadily and in 2008 we moved to newly built premises in Tumba, Stockholm.

Electric vehicles are our lives and today we have service agreements on more than 500 electric vehicles in Stockholm with customers like postal distribution, housing companies, industries, cemetery administrations, etc.

In addition to service and repair of electric vehicles, we work with:

- Sales of new and used electric vehicles and accessories for electric vehicles.
- Manufacturing of self-designed electric vehicles.
- Workshops throughout Sweden informing and educating about electric vehicles.
- Equipping battery locations according to Swedish work environment authority.
- Driving courses, including driver responsibility and understanding of the electric vehicle and management.
- Advice and consulting on the procurement of electric vehicles.
- Spare parts, accessories, batteries, battery water, etc.
